

SEEKING EMERGENCY ASSISTANCE!

Attention experienced trail builders! Your assistance is desired to make the FINAL Peart Road, Ridge Trail connection. . .

The City of Casa Grande was fortunate the second NCCC Americorps team, FIRE EIGHT, finished the majority of the ridge trail to the North, constructing over 10,000 feet from where community volunteer trail builds ended in February 2011. Unfortunately, they were unable to make the entire connection to the trailhead at the end of Peart Road before needing to return to Denver, CO. We are eager to finish the trail connection and build the remaining **1,557 feet to create a complete north to south ridge trail that allows hikers, mountain bikers and equestrian users a five-mile (one way) hike.**

We would love your assistance to finish this connection. Please check your calendars and consider assisting us during one or more of the **weekday** events listed below. As in the other 3 miles built this past year during community trail builds, the greater the turn out, the greater the impact!

We bring the tools and you bring your trail construction expertise, energy and snacks to get you through the morning. Trail building event will finish at Noon, just in time for you to have lunch in town or at home.

Meeting place will be the Peart Road Trailhead, so please sign up for directions at www.cgmountaintrails.org or email Anita Avila, aavila@casagrandeaz.gov.
